- Contact material: Gold plated 50µ over copper alloy
- Thread size: 13/16" – 28UN
- Max panel thickness:
4.0mm / 0.157"
- Cycle life: 1,000 insertions
- Current rating: 1 amp
- Voltage rating: 48v
- Recommended Panel Cut
(for truncated circle):
19.4 mm – 20.8 mm
(0.760" – 0.815")

RJ45 Housing:

- Cable diameter range:
5.5-7.0mm / 0.216"-0.276"

What Is IP67?

An IP67 rating ensures that a product is protected completely against dust and from immersion in liquid to a depth of 1 meter (up to 30 minutes).

Waterproof RJ45 Bulkhead Coupler connects indoor and outdoor environments together.

Outdoor, Harsh Elements.

Installing Waterproof RJ45 Housing will give you an IP67 waterproof connection.

Use Seal Tight Cap to close off jack when not in use.
